

MANUAL MACHINIST

Treske Precision Machining, Inc., a commercial, aerospace, and defense precision machine shop has immediate full time position for a Manual Machinist. We are a constantly growing company looking for a capable, flexible, and dependable candidate to fill this opening.

Responsibilities include:

- Sets up and Operates precision manual machining equipment including both Lathes and Mills
- Work from complicated drawings for making prototype parts
- Checks parts with dial indicators, micrometers and precision measuring instruments ensuring that the required close tolerances are held.
- Must have working knowledge of shop math to triangulate, make layouts and locate holes/features to be machined and calculate angles for setting precision equipment.

We are looking for candidates who:

- Have a minimum of 10 years of experience.
- Ability to troubleshoot - Assess and apply appropriate machining solutions to both new and current manufacturing processes a plus.
- Have the ability to multitask in a fast-paced and deadline-driven environment.
- Excellent work ethic and dependability
- Able to work overtime as required
- Have strong analytical and troubleshooting skills.
- Want to learn and grow.
- Have the ability and willingness to adapt to ever changing production environment.

JOB CONDITIONS/PHYSICAL REQUIREMENTS

- Work performed in office and factory settings.
- Exposure to manufacturing environment such as noise and dust.
- Regularly required to sit, stand, bend reach, and move about facilities.

PERSONAL CHARACTERISTICS

Candidate must be driven to deliver results with the ability to establish rapport, earn trust, and effectively collaborate with others. Essential attributes of the successful candidate include:

Innovating

- Stays up to date on training and current methodologies
- Seeks ways to maximize production

Pushing Forward

- Makes value-added decisions based on information presented
- Works to meet departmental goals and fulfill strategies

Improving

- Challenges the "status quo" and think differently
- Assess own strengths and weaknesses to improve performance and seek training

Going Further

- Is flexible and adaptable in a complex, changing environment
- Contributes to building a positive cross-functional team environment

Creating Win-Wins

- Able to build partnerships with internal customers, employees, and internal suppliers
- Seeks and encourages others to meet their goals
