

ASSEMBLY TECHNICIAN

Treske Precision Machining, Inc., a commercial, aerospace, and defense precision machine shop has an immediate full time position for an Assembly Technician on our Day Shift. We are a constantly growing company looking for a capable, flexible, and dependable candidate to fill this position on our days shift. The activities are performed under minimal supervision in accordance with established procedures and specifications.

Responsibilities include:

- Perform assembly duties within quality guidelines as required to meet company and customer requirements
- Job set-up including picking of parts, prints, schematics, work instructions and necessary tools
- Pre-assembly of components for main assemblies
- Assembly of components per documented methods and processes
- Complete various machined parts as directed, including pins, inserts and helicoils
- Correct use of power and hand tools in preparations and assembly
- Inspection and test of completed assemblies
- Package unit for shipment to customer as directed
- Communication of recommendations for improvement of process and procedure
- Complete inspection forms and supporting documentation when necessary
- Completion of related tasks as directed

We are looking for candidates who:

- Have 1-3 years practical experience in a production environment
- Are capable of handling a fast paced environment in addition to having a strong sense of urgency
- Are able to work independently with minimal supervision
- Are able to lift 50lbs and stand for 8 or more hours a day
- Are Attentive to detail, with a focus on accuracy and quality
- Are good with computers in a business environment
- Are flexible as this position has the potential for 'off-hours' and overtime as needed

JOB CONDITIONS/PHYSICAL REQUIREMENTS

- Work performed in factory settings.
- Exposure to manufacturing environment such as noise, dust and the outdoors.
- Regularly required to sit, stand, bend reach, and move about facilities.
- Must be able to lift light to moderately heavy objects (up to 50 lbs).

PERSONAL CHARACTERISTICS

Candidate must be driven to deliver results with the ability to establish rapport, earn trust, and effectively collaborate with others. Essential attributes of the successful candidate include:

Innovating

- Forward thinker
- Seeks more efficient ways to perform duties

Pushing Forward

- Makes good decisions based on information presented
- Works to meet departmental goals and fulfill strategies

Improving

- Can challenge the "status quo" and think differently
- Seeks to make work environment better for all

Going Further

- Can be flexible and adaptable in a complex, changing environment
- Engaged in helping company achieve goals and objectives

Creating Win-Wins

- Able to build partnerships with internal customers, employees, and internal suppliers
- Seeks and encourages others to meet their goals
